EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in telephone interviews with George Renzoni between 12/11/2008 and 12/12/2008.

The application has been amended as follows:

In line 2 of Claim 1, after the word "peroxide" and before the comma, the word -- alone-- has been inserted.

In line 2 of Claim 5, after the word "peroxide" and before the word "into", the word -- alone-- has been inserted.

In line 1 of Claim 7, the number "6" has been deleted and the number --5-- inserted therefor.

In line 4 of Claim 10, after the word "peroxide" and before the comma, the word -- alone-- has been inserted.

The following is an examiner's statement of reasons for allowance: the nearest prior art, Dean et al, teaches post-crosslink bleaching processes performed in an alkaline environment, such as chlorine dioxide-caustic extraction-peroxide sequences. Other prior art, Cook et al, teaches polycarboxylic acid crosslinked fibers subsequently treated with an aqueous solution of sodium hydroxide (NaOH) and hydrogen peroxide (H_2O_2). It is known in the art that bleaching natural fibers with H_2O_2 generally requires activation of the peroxide via the use of alkali, sulfuric acid, hypochlorite or other organic activators, with alkali (e.g.- NaOH) being the most preferred. Treatment with H_2O_2 alone is not disclosed in the cited prior art and would not have been obvious to one of ordinary skill in the art due to the need for activation. In addition, the data provided in the instant application showed significantly larger increases in Whiteness Index (WI) over the claimed time period for fibers contacted with H_2O_2 only versus those bleached with the usual H_2O_2 -NaOH combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DENNIS CORDRAY whose telephone number is (571)272-8244. The examiner can normally be reached on M - F, 7:30 -4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571-272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
